

Dear Athletes and Parents:

Starting this sports season, Bay Area Medical Center will be providing the Athletic Training service for your high school or youth association. In order to expedite all athletes, BAMC needs parents to fulfill the following tasks:

**1. Register for SportsWare:**

- BAMC utilizes a secure online data entry system called SportsWare. This system allows your Athletic Trainer immediate access to your athlete's medical history and contact information in case of an emergency, and also allows coaches/parents to check on an athlete's participation status anytime.

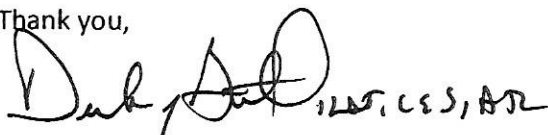

**2. Concussion Management:**

- BAMC offers a comprehensive concussion management program to ensure your child's safety. After creating a SportsWare account and completing forms your child will be eligible for a free baseline test.
- If your student is "**thirteen years old or older**" BAMC offers a free concussion baseline test. The baseline test obtains pre-injury information to be used following a head injury.
- If you are interested in having your child tested please contact the appropriate Athletic Trainer listed below.

➤ Menominee	Derek Butler	(715) 938-2000
➤ Marinette	Mike Shampo	(715) 923-0032
➤ Crivitz	Brian Cleven	(715) 938-2306
➤ Stephenson	James Schultz	(715) 923-1570

If you have any questions or concerns please contact Derek Butler at [dbutler@bamc.org](mailto:dbutler@bamc.org) or by phone at 715-938-2000.

Thank you,

Derek Butler, LAT, CES, ATC
