

## MODULINE® Front/ Back Labeling System

ModuLine is a high performance, economically-priced labeling system for front/ back, wrap or custom applications with production rates up to 200 ppm.

ModuLine surpasses all equipment in its price range and is suitable for multi-shift operations where long-term reliability is important.

Features include microprocessor control, simple 'no tool/ no change parts' operation, stainless steel construction and AC frequency product handling.

- Compact footprint
- Suitable for harsh/ multi-shift environments
- 50 programmable product presets
- Encoder-based speed compensation
- Ideal for Pharmaceutical, Food, Personal Care, Automotive and other markets

# Capabilities

## QUALITY / FLEXIBILITY

The ModuLine labeling system is suitable for single or multi-shift operations where long-term reliability is important. All critical components are designed for 24/7 reliability.

The versatility of ModuLine makes it ideal for contract packagers or companies requiring frequent changeovers on a wide variety of products.

## ADVANCED CONTROLS

ModuLine features a programmable microprocessor control with flash memory. This provides electronic synchronization of the labeling process and stores up to 50 label/ product presets.

## STANDARD FEATURES

- SYSTEM**
- Microprocessor control with flash memory
  - 4-1/2" width x 120" length x 34" height conveyor
  - Stainless steel welded frame
  - Production Rate: Up to 200 products per minute (dependent upon label/product dimensions)
  - Applied Accuracy: Up to +/-1/32" @ Sigma 2 (exclusive of product variation)
  - Maximum Product Height: 14"
  - Pacing wheel
  - Chain Aligners
- LABEL APPLICATOR**
- Encoder-based speed compensation
  - Rugged stainless steel/ aluminum construction
  - Precision sealed bearings
  - Outboard supported drive for long-term reliability
  - Dependable performance in harsh environments
  - 16" label unwind for less frequent roll changes
  - Integrated fan-cooled electronics
  - 1,200" per minute dispensing speed
  - 7" wide web (6 7/8" max. label width)
  - 220/ 50/ 60H / 1 Phase

## OPTIONS

- Single side or wraparound configuration
- Missing label on product detection
- Vision system integration
- Product pacing and alignment feedscrews
- Variable speed wrap station for round containers (Available in 12", 18" or 24")
- Low label detection
- End-of-web detection
- Broken web detection
- Loose-Loop Thermal Transfer, Laser or Inkjet printer
- Hot stamp imprinter
- Clear label detection
- Upgrade to 2,200" per minute dispensing speed
- 20" label unwind
- 10" wide web (9 7/8" max. label width)
- Consult factory for additional options
