

EVOLUTION SOCCER PROGRAMS

FAMILY HOUSING

HOST AN INTERNATIONAL SOCCER COACH

We've got a very special opportunity this coming this season for your soccer family.

Over a period of time during the inception Evolution Soccer Programs in the US, when there were no hotels or dormitory accommodations for coaches near to our locations for training and camps, some parents of those children attending those programs, offered to house coaches for the week. Over the years, the family housing program has become an enormously successful experience for both the host families and coaches; in-fact most of our coaches prefer family housing to hotel accommodations.

BENEFITS OF HOSTING AN EVO COACH

1. **FREE** weekly private 1on1 **TRAINING** with your coach.
2. **FREE REGISTRATION** for the soccer season or soccer camp
3. Added **EXCITEMENT** for your child's soccer season.
4. A **MEMORABLE** cultural family exchange experience as your children learn about our Coaches home country and culture.

ABOUT THE FAMILY HOUSING PROGRAM

A FANTASTIC FAMILY EXPERIENCE

Hosting a coach is a fantastic way to introduce a cultural exchange to your family! Our coaches love to spend time with families within the program and enjoy the feeling of being part of our extended "community family."

The stay can be as short or as long as the family desires and requires nothing more than a place to sleep and somewhere for the coach to shower and do laundry. Anything else is entirely up to the family. Not only does the program provide a truly unique cultural experience to your household, but also allows for a little extra time to be spent with your children working on their soccer skills!

To learn more or to register to benefit from this fantastic cultural soccer experience, please contact your local Evolution Soccer representative;
