

CYHA Programs

The CYHA offers hockey programs to kids from ages 8-18 at all levels of play.

Our House Program is where most of our kids start when they begin in our Association. It is our least competitive environment and provides a fun place for kids to learn to play the game and to develop their skills. This program involves no travel and is held within the Carolina Ice Palace.

Our House Select program is a beginning travel program for our House kids that are interested in learning about travel hockey. The teams travel once a month to cities within South Carolina and North Carolina.

Our Travel program is our most competitive environment. It is for players who have both the interest and skill to play at a higher level. Playing league and tournament play, this level requires a larger dedication of time to participate. Strict rules regarding grades, behavior and commitment to the team are a part of the program. Participants at this level may also have an opportunity to participate at the National level.

About Youth Hockey

The Charleston Youth Hockey Association is a 501(c)3 non-profit organization which serves the tri-county area. Our purpose is to encourage, foster and promote the development and growth of the sport of amateur hockey among our youth. Our program reaches approximately 150 children both boys and girls. CYHA provides a positive learning experience through coaches that are certified through USA hockey.

Hockey is a team sport that builds character and the boys and girls who participate learn the value of working with others. They experience a team spirit that encourages trust, responsibility and sportsmanship. Hockey also promotes a strong sense of self, a positive self-esteem and pride.

Hockey improves mental agility. Hockey is a fast sport. Plays develop in seconds, and momentum can shift in the blink of an eye. A child who can learn how to operate in that sort of environment will improve his or her ability to make quick decisions and think on his or feet. Concentration is also improved; being able to concentrate while playing will make it easier to concentrate while learning. It's also a sport of strategy. Understanding how one event can lead to—or even create—another is essential to life success.

The CYHA is committed to giving opportunities to kids in the Lowcountry who want to play hockey. An integral part of that is making scholarships available and developing a means to keep fees at a minimum for all of our kids. Your participation in our golf tournaments helps us meet our goals.
