

Beaver Dam Family Center Rink Layout

Below, you will find a lay-out of our facility and ice sheet for your convenience. You will note the entrance and exit doors are both on the North end of the ice sheet. All teams will proceed to the photography area for a team picture after their first skate prior to returning to their respective locker rooms.

Critiquing will once again be available to coaches in our Judges/Board Room. Judges will critique at assigned times to be included in the information packet you will receive when you arrive at the competition. Please sign up for a critique at the registration table.

*The Upper level of the Family Center houses space for your team and skating equipment along with vendors. All are welcome to visit vendors upstairs. Skaters can enter through main door way and exit by means of back stairwell leading to locker rooms 5 - 8 hallway. A variety of different vendors will be available this year.
