

If you are looking into summer skating session and training, [Network Hockey Training Academy](#) at the Gardens Ice House is an option. To be brief, the quality of instruction and the environment that is created in which players can grow and develop over the summer is matched only to the Junior A, Collegiate and Professional levels coached over my career.

I understand that you have many choices when you skate in the summer, but when you are preparing your summer schedule, please feel free to call upon me to help you with your planning, or Craig and Linda Laughlin for you on this note, so you might be able to speak with them or myself if you have any questions. The phone number for Network Hockey is: [\(443\) 618 – 7092](tel:4436187092).
