Questions for potential PLSC Board members

How long have you and/or your family been involved with PLSC?

We have been involved with PLSC since we moved to Prior Lake in 2008. I have served on the PLSC Board since 2012 serving as Age Group Coordinator, Vice President and for the last two years in the role of Club President

Describe your experience with our programs. (Involvement, strengths, and potential growth areas of the club)

During my tenure on the Board of Directors, we have evolved into an organized business and implemented many disciplines as the organization has grown. On the executive committee specifically, we have migrated from an informal contractor driven model to an employee centered staff operating with formal processes and a detailed budgeting process with full accountability to the board and membership. We have also responded to member needs by streamlining fee structures. We have also expanded our Recreation Program and added an Academy Program centered around player development and passion for the game.

What position are you interested in on the PLSC Board? And what experience and/or skills do you have that makes this a great fit for you?

I am interested in serving one additional term as President for PLSC. We a number of initiatives underway and that once completed will serve the members well for the future and allow for a smooth succession in two more years.

Are you able to make monthly board meetings on the 2nd Sunday evening of every month?

I have a very active business travel schedule but I control that travel and have no issue continuing to attend all necessary meetings related to this role.
