

MC UNITED SPRING 2019 PARENT SURVEY

In the spring of 2019, MC United conducted a web-based survey to better understand parents' overall satisfaction with MC United, to assess their perceptions of their child's experience and skill development, and the timeliness and effectiveness of team/Club communications.¹ The survey was distributed via email to a parent/guardian, with the opportunity to complete for each of the spring 2019 players (responses were obtained from 108; about 35% response rate). Highlights of the survey are summarized below and in the table that follows.

High Rates of Parent Satisfaction with MC United

- 85% of parents were "satisfied" or "very satisfied" with their child's spring 2019 MC United soccer season experience.
- 86% would be "likely" or "extremely likely" to recommend MC United to a friend, neighbor, or colleague.

MC United Provides High Value

- Three (3) out of 4 parents reported that the overall value they received from the MC United registration fee in light of the experience, skill training and camaraderie enjoyed by their child was "valuable" or "extremely valuable."

Increased Player Development

- 72% reported that their child had a "noticeable" or "very noticeable" increase in their soccer skills during the spring season.
- 93% reported that playing time "met" or "exceeded their expectations".
- 88% reported that their child's coach balanced the desire to win with the desire to provide player experience and development.

Timely and Effective Communication with Parents

- 87% reported that communication from their team/Club was "timely" or "very timely".
- 85% reported that communication was "effective" or "extremely effective".

The survey tool also provided parents with the option to include more detailed comments with their responses to each question. MC United's Board is reviewing the detailed comments in order to identify areas for further improvement.

¹ MC United would like to thank Todd Suckow for the design, implementation, and analysis of the survey responses. SurveyMonkey was used to administer the survey.
