Commemorative Brick

COMMEMORATIVE BRICK WALK

DAVID L. OLBERDING OHIO ELITE TRAINING CENTER

The David L. Olberding Ohio Elite Training Center was purchased and developed as a 30 acre property in 2007. Originally it was named the Ohio Elite Training Center. In 2008, a generous gift from the Olberding Family helped launch further development of the facility. From that point forward it named the David L. Olberding Ohio Elite Training Center. As the club has expanded the need for more usable area has become obvious. In 2014, Ohio Elite Soccer Academy developed an additional seven acres that was gifted to the club by land owner Frank Minges. This brought the usable training space to 27 acres. Many projects and considerable funds have been invested into the facility over it's nine year existence. To date more than \$1 million has been invested to provide Ohio Elite players with the best training facilities in the area.

The Ohio Elite Soccer Academy is committed to the continued improvement of the David L. Olberding Ohio Elite Training Center. It is our hope in the coming months and years to continue to expand the current irrigation systems. In addition, continued improvement to the playing surfaces is a priority for the club.

All proceeds from the Ohio Elite Soccer Academy Commemorative Brick Walk go directly back into facility development and improvement. You and your family can live in the history of the David L. Olberding Ohio Elite Training Center forever by purchasing an engraved brick. Each personalized brick will commemorate the commitment from our club members to make our facility second to none.
