November Minutes ratified.

UGEH: A representative with the state is currently writing new policies for the Tier program specifically. There may be a possibility of this affecting our house program.

URHL/Scheduler: An email was sent November 4th, in regards to the December break schedule. Aside from the 24th, the practice schedule is the same. During the Christmas break, beginning the 24th, there will be no practices/games until the new year. A suggestion will be made to SDRC to have a few stick and pucks during our off week. To clarify, in order to play in the URHL, a player may not double roster on two different house teams. A suggestion is to lock down our policy on who can be on our select team, whether they should be required to play house for Davis.

SDRC - Goalie clinic needs to be canceled this Saturday due to a scheduling conflict. There is a try hockey for free on Saturday at 5:45pm. Dave Soutter will be available to help coach, other DCYHA coaches will help, depending on who is available.

DCYHA Select "B" Policy: A correction will be made that all Select scheduling is still done via the DCYHA Scheduler, so ice time and billing is being tracked.
