PROJECT UPDATE

As part of the Long Term Officials Development program, we committed to keeping the Match Officials Community updated on our LTOD activities.

Over the next few pages you will see a list of activities and their status, as well as some charts that were created after we completed our LTOD surveys.

We have steadily been reaching our Activity Goals through the first half of 2017, and are on target to reach or surpass our total goals by the end of the year.

This activity update is a snapshot of what is happening in Long Term Officials Development. The planning, administration, additional meetings, follow-up and analyzing of all surveys and post-presentation questions are in addition to what you see here.

We are looking forward to creating a community of inclusion, development and opportunity.
