

### Supplemental Live Barn Notes

- It's a 3 camera system: one on back wall on redline, one on the scoreboard, the third is the tracker camera.
- Cameras turn on at 6am and off at 11:30pm
- People subscribing can pull up a game live or a particular game
- LB will supply a 50in TV for our warming house (do we have room?)
- \$12-\$15 with promo code- we get credit if people use our promo code. Every 3 months we get 30% of the revenue
- Our rink can schedule black out privacy sessions- we will get software to do this.
- LB will supply signage letting people know they will be on LB
- Can lock games (privacy) with a code
- They are currently 3 months out on installation. Only takes one day to install with no cost to rink. They do supply tech support.
- Not sure if legally we would have to turn of LB if someone was "uncomfortable"
- Training would take place a week or two after installation.
- Can watch on demand for 30 days
  - \$24.99 allows us to download 30 hours of content
  - MHC gets 3 free accounts at the basic level.
  - GM/rink manager gets 1 downloaded account.
- 6 year exclusivity – unmanned camera system
- Upgrades of software done overnight.
- No cost to replace equipment at reasonable wear and breakage.
- They try to give high definition unless issues with netting, barriers, etc...
- 200ft away is the "sweet spot" for hardware- Modem and PC (on a rack)-wireless
- Need 120v
- Will do a site survey after contract is signed. Will want pictures of our rink.
- Admin console can be accessed remotely. Need this persons e-mail and password- 1 person only
- Items would be shipped to rink- cameras and cables
- Worst case scenario- 6 months to install
- Marketing will be provided. We will need a marketing partner on our end.
