L.A. Snead

CLASS	HEIGHT	POSITION	HIGH SCHOOL	AAU CLUB
2025	5'6	PG	N/A	SA Finest

EVENT EVALUATION

The 2025 designation is not a mistake, the young PG made an argument for being the most dynamic play maker in the MS session. A violent ball handler that hits gaps with the same veracity. Her jump shot is high arching and should smooth out as she continues to gain balance and add reps. Vision and playmaking ability is far beyond her years.

Kelly Mora

2023	6'2	P	N/A	Lubbock Nitro

EVENT EVALUATION

Strong body post player with good bounce. A shot blocker and rebounder that already plays with elite toughness. Good young Bigs with hands to match is not common, Mora has enough touch to be nice to the backboard after powering her way through defenders.
