BATTLE AT THE HIVE

NXERRO DENG

CLASS	HEIGHT	POSITION	HIGH SCHOOL	AAU CLUB
2021	6'2	POST	SOUTH GRAND PRAIRIE	NTX SHOCKERS 2021
EVENT EVALUATION				
<p>Deng was active on both ends of the floor; rebounding, blocking shots, and finishing around the basket. She ran the floor like a pro, and out ran her match-up almost everytime. But the best thing about her over the weekend was that she was consistent. She showed up and did the little things each game. This is a kid to keep an eye on, I am excited to see her development.</p>

MICHAYLA GATEWOOD

CLASS	HEIGHT	POSITION	SCHOOL	AAU CLUB
2022	5'6	COMBO	MCCOWAN MIDDLE	NTX TAR HEELS 2022
EVENT EVALUATION				
<p>Gatewood was extremely efficient over the weekend with her scoring and distribution. Her club team is loaded, and she did a good job making sure shots were evenly distributed. She also showed her ability to rebound on both ends from the guard position. However, what I enjoyed most was seeing the development in her jumpshot. She was ready to shoot with a smooth release. Aside from the job she did in the half court, she was a cut above in transition and a hound on defense as always.</p>

JAMIA HARRIS

CLASS	HEIGHT	POSITION	SCHOOL	AAU CLUB
2022	5'6	GUARD	MCCOWAN MIDDLE	NTX TAR HEELS 2022
EVENT EVALUATION				
<p>Harris was, who Harris has always shown herself to be; a very good two-way player. She was efficient from deep offensively, while hassling opposing ball handlers on the defensive end. Her defensive tenacity and shot making ability was key in the championship run her club made over the weekend.</p>

MADDIE COX

CLASS	HEIGHT	POSITION	HIGH SCHOOL	AAU CLUB
2023	6'1	POINT FORWARD	N/A	CY-FAIR 2023 EVANS
EVENT EVALUATION				
<p>Cox was jaw dropping! She really showcased her versatility all weekend, playing all 5 positions effectively. With all of her skills on full display, it wasn't her ability to do everything that impressed me. It was HOW she did everything. She was the hardest worker on the floor every possession. She went out after every rebound and loose ball. It was a joy to watch a kid with so much talent, play so hard.</p>

GISELLA MAUL

CLASS	HEIGHT	POSITION	SCHOOL	AAU CLUB
2023	5'6	COMBO		CY-FAIR 2023 EVANS
EVENT EVALUATION				
<p>If you don't know this kid, you might want to change that quickly. Gisella is the most complete 7th grader I have ever seen. Her understanding of how to play the game is unprecedented at her age. She picked defenses apart all weekend with her ability to penetrate and score or kick to her teammates for scores. She showed her ability to shoot it as well. You can ask KD about her jumpshot. Just youtube "Gisella" when you get a chance.</p>

PACE RICKARD

CLASS	HEIGHT	POSITION	SCHOOL	AAU CLUB
2023	5'5	POINT	HILL COUNTRY MIDDLE	TEXAS ELITE 2023
EVENT EVALUATION				
<p>Pace was one of, if not the most poise kids in the gym at the Battle of the Hive. Her ability to see the floor was on full display and her shifty handle made it easy for her to find teammates in transition and in the half court. She also found her shooters when they were open and delivered pocket passes. It is rare to find a kid with this much skill also be a willing passer. Cant wait to see her development.</p>

JENNA KENDALL

CLASS	HEIGHT	POSITION	SCHOOL	AAU CLUB
2023	5'5	GUARD	N/A	TEXAS ELITE 2023
EVENT EVALUATION				
<p>Jenna was soak and wet all weekend. She's one who the crowd believes every open shot she attempts is good before the release. She ran the floor well in transition, and did a really good job moving to open space and being ready to shoot in the half-court. Those skills alone will make her a good college player.</p>

TRISTEN TAYLOR

CLASS	HEIGHT	POSITION	SCHOOL	AAU CLUB
2023	5'4	POINT	N/A	TEXAS ELITE 2023
EVENT EVALUATION				
<p>Tristen was a DAWG on both ends of the floor. Her tenacity on defense led to easy transition scores for her and her teammates. In the half court she finished with both hands off penetration and found open teammates after drawing help. She was extremely crafty with her finishes in traffic and did not shy away from contact. Tough kid.</p>
