

LePort Montessori Broadlands

At LePort Montessori Broadlands, you will find an authentic, nurturing Montessori school where children can attend from toddler daycare and preschool through elementary school. By enrolling your child at our school, you'll find a home away from home, a community of educators and fellow parents who believe in the goodness of the child, and the power of an individualized, respectful education. Our mission at LePort Montessori is to help children gain what we call *Knowledge for Life*: the essential knowledge, thinking skills and strength of character needed to flourish as joyous children today, and as successful adults tomorrow.
