

Strike FC Rainout Policy

This policy refers to any and all Strike FC Wisconsin practice and game facilities and locations. Strike FC Wisconsin will, due to inclement weather, cancel any and all practices and games if a heavy rain is forecasted, field conditions have deteriorated or if safety of our members is brought into question. This will also apply to any severe weather and snow.

Members will be notified through club wide email but, should also check the Strike FC Wisconsin website: strikefc.org, for any and all cancellations. Strike FC Wisconsin will attempt to notify members and update the website as quickly as possible to allow for arrangements to be made.

Any Recreational games U6 through U10 that are cancelled due to this policy will be made up on a designated 'make up' date. Strike FC will 'make up' one cancelled game in the Fall and one cancelled game in the Spring. No other cancellations will be subject to 'make up'.

For Select teams, regardless of level or division and Recreational U12-15 teams playing in WARS, managers must communicate with both the Strike FC Wisconsin administrator: kim.opie@strikefc.org, Wisconsin Youth Soccer Association and the opposing club to reschedule the game. For WARS games, when a game is rained out, we ask teams to contact their opponents to make sure our rain date/rescheduled date works for them. We will give WARS team the option of rescheduling on an alternate date that works for both teams.

Referees may also cancel games for the same conditions set out in this policy. Games that begin and are concluded at half time because of weather conditions are considered complete and will not be rescheduled. Games that are halted during the first half before half time, will be rescheduled and should be done following the process above.

For Recreation games requesting reschedules, the only games that will be considered, not guaranteed, are ones that are cancelled by Strike FC or are affected by events that impact large numbers of teams.
