

2021 - 22 Athletic Training Services Consent to Treat Form

Student Name: (full legal name) _____

Address: _____

City: _____ State: _____ Zip: _____

Student's Date of Birth: _____ Student's Graduation Year: _____

Parent/Legal Guardian #1 Name: _____

Parent/Legal Guardian #1 Phone: _____ Email Address: _____

Parent/Legal Guardian #2 Name: _____

Parent/Legal Guardian #2 Phone: _____ Email Address: _____

I, _____, the parent or legal guardian for the student listed above, do hereby consent to the student receiving athletic training services from Froedtert & the Medical College of Wisconsin. I understand that during the course of these services certain health information related to student's athletic training services may be used and/or disclosed for treatment, payment or healthcare operational purposes, or as otherwise required by law.

I further consent to certain health information being disclosed to school personnel, including but not limited to, coaches, school administration and/or staff, as necessary.

I understand this consent is subject to my revocation at any time, except to the extent that action has been taken in reliance on this consent. Otherwise, this consent shall expire at the end of the school year or the student's current athletic season, whichever is later.

I, _____ being the parent or legal guardian of _____ have read and understand the above consent and hereby grant permission for my child to receive athletic training services.

The ImPACT (Immediate Post Concussion Assessment and Cognitive Testing) computerized exam is given to athletes before beginning contact sport practice or competition. This non-invasive test is set up in “video-game” type format and takes about 15-20 minutes to complete. It is simple, and actually many athletes enjoy the challenge of taking the test. Essentially, the ImPACT test is a preseason physical of the brain. It tracks information such as memory, reaction time, speed, and concentration. It, however, is not an IQ test.

If a concussion is suspected, the athlete will be required to re-take the test. Both the preseason and post-injury test data will be evaluated by a trained physician to help evaluate the injury. The information gathered can also be shared with your family doctor. The test data will enable these health professionals to determine when return-to-play is appropriate and safe for the injured athlete. If an injury of this nature occurs to your child, you will be promptly contacted with all the details.

We wish to stress that the ImPACT testing procedures are non-invasive, and they pose no risks to your student-athlete. We are excited to implement this program given that it provides us the best available information for managing concussions and preventing potential brain damage that can occur with multiple concussions. The Froedtert & Medical College of Wisconsin administration, coaching, and athletic training staffs are striving to keep your child’s health and safety at the forefront of the student athletic experience. Please return the attached page with the appropriate signatures.

Consent Form

For use of the Immediate Post-Concussion Assessment and Cognitive Testing (ImPACT)

I have read the attached information. I understand its contents. I have been given an opportunity to ask questions and all questions have been answered to my satisfaction. I agree to participate in the ImPACT Concussion Management Program.
