Great work out there today Taking advantage of the nearly ideal weather. This site is the only meet East Ridge has run every year since our school opened. Fantastic work riding that hill down, momentum at the start of the uphill, and then using your arms to get your legs to follow as strategized that climb. Excellent finish stretch on the uneven terrain as you kept it up, many of you exchanging points through the finish line. There were lots of comments from onlookers. You were tough though! Like I said in person, it was obvious that you were there for each other! We've got work to continue; we are in a good place as we head in to our next meet. Blaine You're showing some confidence in your pace and then digging down when needed. Grit!

“Meet” Letter points:
