

WEATHER POLICY

Laredo Heat SC's general rule is we will not cancel a training session for rain but will for lightening. We will suspend session for lightning temporarily and wait until thirty minutes after the last lightning strike.

We can only suspend a session for a reasonable amount of time before darkness or another training session starts; under these circumstances training sessions would force a cancelation.

Excess rains which make field unplayable would also force a cancellation. For this specific circumstance, Laredo Heat SC will try and post a Cancellation Notice on the website.

If possible, training sessions will be made up if space and time are available to the Laredo Heat SC.
