

## **Manager**

The Manager is accountable for the day to day management of their assigned team. This includes, but not limited to, personnel management (e.g. players, coaches), practice and game execution, and team communication. The Manager is also responsible for working directly with the Division Commissioner regarding any issues throughout the season, whether it be personnel related, safety concerns, scheduling conflicts or injuries. Managers are required to attend the mandatory field maintenance clinic and coach's clinic. Managers are selected using an interview process conducted by the League Board of Directors. All Managers will undergo a background check and are required to obtain/maintain a valid concussion certificate.

## **Coach**

A Coach is responsible for supporting the team's Manager, with primary focus on the development of players, by enabling an environment for players to improve baseball skills throughout the year. Coaches are selected by a team Manager, but could be subject to an interview process conducted by the League Board of Directors. All Coaches will undergo a background check.

## **Team Parent**

A Team Parent is responsible for supporting the team's Manager, with primary focus on leading the team's participation in League Fundraisers (e.g. raffles, spirit-wear) and League Snack-Bar volunteer shifts. He/she is also responsible for overall team communication, whether from the League or from the Manager.

## **Scorekeeper**

Scorekeepers are accountable and responsible for documenting official game scorebook and statistics. Each team will be responsible for identifying a scorekeeper, as games must be scored by the home team. This position is required to be non-biased at games, therefore cannot cheer or give instructions to the teams. Training for individuals interested in Scorekeeping will be provided by the League.

## **Field Maintenance**

The League has Board Members that are accountable for Field Conditions, but they need help to maintain the fields throughout the season, and to prepare fields for games (e.g. grating, chalking). Each team will be responsible for identifying resources to help maintain and prepare fields for games.

## **Snack Bar**

The League has Board Members that are accountable for managing our Snack Bar, but they need help throughout the season to ensure seamless execution each week. While each member of the League is responsible for volunteering a set number of hours in the Snack Bar, this role is only if you're interested in a broader role (e.g. shift supervisor, product procurement). Interested volunteers will be interviewed by members of the League Board of Directors, and may be required to undergo a background check.
