

2021/22 McKinney North Stars COVID-19 Protocols

Currently COVID-19 cases are rising within the DFW metroplex. To reduce the potential of spreading the COVID-19 virus it is important to abide by with the following:

- **Players that do not feel well or have any symptoms related to COVID-19 must not attend any North Stars event (practice, dryland training, games, team meetings, team parties, etc).**
- **If a player has been in recent direct contact with anyone that has been diagnosed with COVID-19 then the player must not attend a North Stars event.**
- Please notify your head coach and/or TM if your player will not be able to attend a North Stars event due to a COVID-19 reason.
- Players exposed to COVID-19 or that have tested positive for COVID-19 should follow the guidelines provided by the CDC found [here](#) before returning to a North Stars event.
- Currently masks are not mandatory for players and spectators in the McKinney Rink. We recommend anyone who is not vaccinated, including players and family members, wear a mask while in the rink and not on the ice, especially in the locker rooms.
- There will be two locker rooms available for shared ice practices and one locker room available for single team practices. Chairs will be available at the ends of each rink to use for gearing up if you do not want to use the locker room.
- Players should bring their own water bottle.
