Promote-Grow-Develop

Vermont local hockey associations throughout the state host Learn to Skate and Learn to Play programs for 4 to 8 year olds. See which association supports your own town and get in touch with a board member.

These programs support USA Hockey's American Development Model with age-appropriate, age-specific competition and training for boys and girls ages 4 – 8 years old. This is a fun and low cost to way introduce the game of hockey for kids in our communities.

If you have any general questions about introducing the sport of hockey to your child, please feel free to contact the VT 8 & Under Hockey/ Growth Coordinator Mike Smith

Mikeburtonsm@gmail.com

Come Play Youth Hockey!

*Learn to play hockey
is a once in a lifetime opportunity.*

Learn to Play

Learn to Play changes the way youth hockey is offered by providing first time participants, head-to-toe equipment, weekly sessions of age appropriate on-ice instruction and certified coaching, led by National Hockey League Alumni, in a fun and safe atmosphere. Learn to Play on-ice instruction plans have been developed in collaboration with experts from USA Hockey.

It's More than skating, passing and stick-handling, hockey is about responsibility, respect and teamwork. As children learn the skills needed to succeed on the ice, they also build and solidify important character traits needed to succeed off the ice. With that in mind, the Learn to Play initiative in Vermont is growing and we have several locations throughout the state for kids and families to take advantage of.

Learn to Skate and Learn to play events allow kids to experience hockey for the first time. Your child will learn how to skate and gain confidence in a fun and safe environment.

Check out www.vermonthockey.org to see what's being offered in your area.
