**Michigan Connect/College Connect
Training Center COVID 19 Protocols**

As a member of USA Prime Michigan, you have unlimited use of the Michigan Connect and College Connect Training Center in Waterford, Michigan. We encourage you use this facility and take advantage of all that we offer. Please view availability as stated on our website at www.michiganconnect.org. Your membership includes use of the throwing area and batting cages with supervised use of the weight and resistance training equipment.

According to Michigan's Governor's Executive Order, the training center is under strict protocols to remain open to our customers. We ask that all of our customers refrain from using the training center if they have a fever, cough, shortness of breath or other symptoms of COVID-19.

If you feel you are healthy, you will be required to follow the COVID-19 Protocols as listed below.

COVID 19 Protocols

- All visitors must sign in upon entering the building.
- All visitors must use the wall mounted non-contact thermometer registering a temperature less than 100.4 degrees.
- All visitors must wear a mask upon entrance.
- All visitors must maintain a 6' distance from other visitors as noted by the floor markings.
- All spectators must remain in their cars to keep our facility at the state mandated 25% capacity mark.
- All visitors are expected to wash their hands prior to departure or utilize the automated hand sanitizer stations.

In order to meet these state mandated requirements, we have purchased two automated hand sanitizer dispensers, floor markings for physical distancing, two wall mounted thermometers, and have hired a cleaning crew to wipe down all surfaces for over 30 hours per week. The cleaning crew will provide services Monday through Friday between the hours of 9:00am and 4:00pm. We expect the crew to have priority of facility usage during these times.

We expect our customers to follow these protocols that are mandated by executive order of the governor. We expect our customers to self-monitor their health and to utilize the tools provided for their safety while using the facility. If any symptoms are present, we ask our customers to notify the management and self-quarantine accordingly.
