

## Popcorn Recipe

- Turn machine ON, along with the kettle & warmer
- Empty contents of pre-packaged popcorn in kettle

**\*\*\*\*To avoid burning popcorn\*\*\*\***

Pay very close attention to the popcorn, when popping slows down, dump the kettle.

## Cappuccino Machine

- Only fill the containers about ½ full with powder mix.

Otherwise the machine will not dispense properly and get clogged.

## Coffee Machine

- 1 packets of coffee / pot brewed
  - Must use coffee filter
- Do **not** turn power off
- Leave the “Enable Brew” light indicator on at all times.

## Pizza/Food Warmer

- Turn Warmer Switch ON
- Temp is set at 160°
- Fill pan with Distilled Water

**Pan must have water in it at all times during operation.**

## Donut Machine

- Turn machine to Standby
- When an order is placed – turn machine to full power to cook donuts
- 10 donuts/order

## Pretzels

- Open package according to instructions
- Cook in microwave for 30-45 seconds
- Leave in package & serve in food/nacho boat.
- Customer open the package top with condiments (butter spray & salt)

## Hot Dog Warmer

- Turn machine on & set temp to 160
- If low water indicator lights up at any time please add DISTILLED water
  
- Use empty water jugs to drain & flush machine.

**DO NOT dump water from hotdog machine down the sink drains!!!**
