

Attention all SMLLA participants and families, Birdman Bats is now an official sponsor of your league! All participants can access 15 % off all custom orders at Birdmanbats.com (*enter code: SMLLA*), participants may also purchase a bat at the exclusive Birdman Bat Booth in early 2020. The booth will be available at SMLLA Tryouts in January 2020, Picture Day & Opening Day in February 2020.

Background: Birdman Bats is a local baseball bat company that specializes in crafting handmade wood baseball bats. We craft bats for Major League baseball players, Little Leaguers, and every player in between. We are one of 30 Major League approved Baseball Bat companies, and provide the same quality and care to our Little League customers, as we do for our Big-League customers.

FAQ: Is wood legal for Little League use? The answer is yes! Birdman Bats uses one piece of wood (Not Composite), this means that our bats are compliant for all Little League competition. Non composite wood bats are also compliant with all tournament regulations, no matter what the organization. Will a wood Bat be heavier than a metal bat? Yes, but only slightly... Our youth wood bats generally are minus 8 to 9 (deduct 8 ounces from the total length of your bat). Though our wood bats our slightly heavier, they are much more balanced. Our barrels our generally smaller than metal bats, this makes our bats better balanced, and creates a denser (harder) sweet spot. If hit correctly, the smaller yet denser sweet spot can make the ball travel further than a standard USA bat.

Visit Birdmanbats.com today to customize a great Little League Youth bat for the Holiday Season! Remember to use *enter code: SMLLA* when you check-out for a 15% discount on your purchase!
