

## **AES & SPORTSENGINE INTEGRATION**

The new SportsEngine MMS “talks” to AES so you can pair your teams and sync your default rosters. To ensure this process happens, club directors need to integrate the MMS to their AES account.

- 1 – Sign into your AES account
- 2 – Navigate to your club page
- 3 – Click on the red “Add SportsEngine Integration” link on the left side of the page
- 4 – Select your “organization,” which should be your club name
- 5 – Click “Save”

### **THEN**

- 1 – Click on the red “Add Governing Season Integration” link on the right side of the page
- 2 – Select the “2020-2021” governing season
- 3 – Click “Save”

## **PAIRING & SYNCING YOUR ROSTERS**

Note – this process syncs your default AES roster and does not automatically upload rosters into specific events. This process can be done with individual teams or in bulk. The integration process above must be completed prior to syncing rosters.
