CASA World Cup Summer Camp

2026

Vision

The vision of World Cup Soccer is to focus on player skill development and creating a “replica national team” environment for players to compete and learn.

There is a belief around the world that when you are investing on the basic soccer skills as early as you can, as much as you can, and as often as you can, you will create players who will see soccer as a learning experience rather than a static thing.

What the World Cup Summer Camp Is....

This six week program is designed to help push the development of each athlete to reach their maximum potential. The first five weeks will focus on technical abilities and the speed of the game. The goal is to encourage players to become calm on the ball and to have options before they receive the ball. The last week will be games. Teams will play for the World Cup trophy by playing games daily.

Curriculum

Technique and skill development:

- Dribbling
- Attacking moves and turns
- Passing & receiving
- Shooting/finishing

Individual tactics:

- 1v1 attacking
- 1v1 defending
- Creating space to attack

Group tactics:

- Combination play
- Crossing
- Team shape
- Movement off the ball
- Retaining possession

Physical development:

- Quickness and agility
- Strength
- Coordination

All players will receive individual attention in small, skill-appropriate groups and compete in many small-sided games.

You can register at:
