DANA HILLS BASEBALL - Playing the game the right way....

What players are saying about our BASEBALL program.

“My time as a Dana Hills Dolphin was some of the best times of my life. I am very grateful for my experiences I had while being in the baseball program. I have friends for life, coaches that had my back and supported me in all parts of my life, and the ability to represent my city through the sport of baseball. The program is all about getting better and having fun while doing it. I would not change a thing in my four years playing baseball for Coach Faris and the Dana Hills Dolphins!”

“I have made life long friends on and off of the field at Dana Hills. I would not be the professional baseball player that I am today without this program. The amount of baseball knowledge and experience provided as a student athlete are first class! I am proud to have endured the process of individual and team building at Dana Hills. I am grateful to have worked together with such great coaches and players. Go Hard or Go Home!!”

UNDER COACH FARIS
