If your child is new to hockey and interested in learning how to skate before registering for the season, this program is just the thing! It is an excellent way to allow your child to come to the rink, learn the basics of skating, and have a lot of fun!

This program is free of charge, and we have skates available for use at no cost.

Just bring either a hockey or bike helmet, gloves/mittens and a hockey stick (optional) and be ready for some fun!

**Check the [www.BYHA.org](http://www.BYHA.org) website for Dates and Times.**

Our **Bengal Cub Program** is a low-cost option providing beginners with an opportunity to learn to skate in a fun, safe environment! The Bengal Cub Program caters to the development of our newest hockey players while giving parents the convenience of having hockey on the same day each week.

Our **Mite Program** offers our players a structured format to develop their hockey skills while enjoying the opportunity to participate in hockey games. The Mite Program will provide increased ice time when compared to the Bengal Cub Program, while still maintaining a focus on fun, safety, and development at a very competitive price.

This program is for children born on or after June 1, 2012.

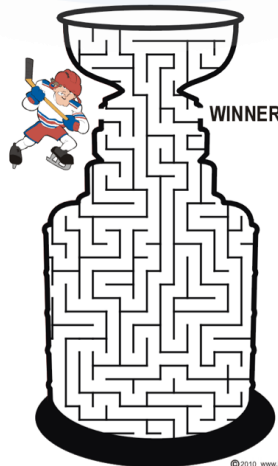

Our **Summer Academy Program** offers an opportunity for your child to develop skills during the summer months, in preparation for the upcoming winter hockey season. Children new to hockey are welcome to participate in our Summer Academy Cubs program. Returning skaters register for Summer Academy at the Mite level they participated in last season.

**[Register now! Summer Academy fall sessions run from July – October](#)**

We are also pleased to offer a continued partnership with Dave's Sports Shop to provide all first-year players with a **free voucher for all needed equipment** (excluding skates, cup/pelvic protector, and a stick). It even includes a hockey bag to store and carry all the equipment! This voucher is free of charge for any player new to hockey who registers for the **Bengal Cub Program, Mite Program, or Summer Academy Program!**
