

Dan Miller

Ages of children involved in MYHA

Taylor - 11 (mites, 6U, 8U, 10U)

Karter - 9 (mites)

Brief general background

I was raised in Mahtomedi and currently live here with my wife and two kids. I was fortunate enough to play youth hockey in Mahtomedi from mites through bantams. I played four years of varsity hockey and continued my playing career in the USHL with the Twin City Vulcan's and at the University of Wisconsin – River Falls.

I have coached in MYHA in the mite program and the girls 6U/8U & 10U program. I started volunteer coaching for the association in 2016 and have consecutively coached through this past 2000/2021 season for both the girls and boys programs. With that experience, I have always had interest in helping the association's players grow and develop and will continue to invest my time not only as a coach but on the board as well.

Strengths

I have experienced the game from a player, coach and a parent perspective. I am passionate about the continued success of our boys and girls youth programs and developing our athletes on and off the ice. In addition to helping develop players on the ice, I want to be sure that there is a solid environment and strong programs for our athletes to learn more about the sport, progress to the highest level they desire to play and most importantly, have an opportunity to make friends, create great memories and have fun!

Why

To continue to give back to the community and sport that I have enjoyed my entire life. I see the joy the sport gives my kids and I only want the association to continue to be a great program as it was when I was growing up in this community. I would like to continue the great work that has been done in our association in both the boys and girls programs. I enjoy volunteering my time and knowledge of the game and it would be an honor to continue to help this great group of volunteers at MYHA.
