Score player – Enter criteria comments if you have any

Don't forget to enter the OVERALL COMMENT in the last item.

A screenshot of a software interface showing a comment input field. The field is titled "Overall Comments" and contains the placeholder text "Enter some comments...". There are icons for a speech bubble, an information symbol, and an upward arrow at the top, and a plus sign icon at the bottom right.

You are limited to 500 characters including spaces so keep it on point, short and sweet. Also, if leaving your name with your message, enter at the end of the comment "space" "space" "dash" "name".

Coaches comments are separated by a "|" symbol.

Overall Comments:

Amazing athlete. Embrace edgework and team concept and skies the limit. CPL | I loved having you on the team this year. You were a great teammate and a lot of fun to be around. This summer work on your decision making when it comes to pass or carry the puck. You have the speed and puck skill to be at the next level up, just need to get your passing to that level. Don't get frustrated if you try to make a pass and something happens that makes the pass not connect, keep trying it is the only way you and your teammates will get better. Good luck next year! -Chris | [REDACTED] is explosive on his skates and has a high top speed. He has good hands and can puck handle very well. He struggles to skate with his head up and because of that his team play suffers (does not pass the puck). He plays position well as long as its the forward position. He struggles to stay home as a defenseman. | [REDACTED] is a very good player. He should work on listening to the coaches and passing to his team mates. | [REDACTED] is an aggressive, fast, and very skilled player. [REDACTED] was very good at rushing the puck and getting shots on net. I would like to see [REDACTED] work on head manning the puck more. I would also like to see him focus on edge work. I really enjoyed coaching [REDACTED] this year and look forward to seeing him back at BYHA next year. - Coach Ryan
