INTEGRATED RUGBY MANAGEMENT SYSTEM

MatchApt™ is a Web based Rugby Management System that is integrated with USA Rugby's CIPP registration system, and with InjureFree™

injury reporting platform.

MatchApt allows rugby leagues and clubs to maintain club roster and contact information and to assign players, referees and medics to matches and tournaments in accordance with Rugby Union/League conventions and USA regulations.

The system has multiple levels of access for setup, scheduling, score reporting and league standings. It keeps complete history of all events, and contains player, referee and coach details.

Context and security level sensitive help is available by clicking on the help button on every page.
