Fall/Winter 2018-2019

September 2018

President's Corner by Art Bass

We are happy to announce that our 50th anniversary newsletter is complete and hot off the press. Enjoy this issue. I have personally been involved with DAA since the 1980's. It is something I have never regretted and thoroughly enjoyed. I have had the privilege of being involved with so many great parents, coaches, kids and volunteers over the years and consider those experiences some of the best life has to offer. I have seen many of our kids start in 2nd grade, go on to college, come back to help our kids as they establish their own careers and then have kids themselves and come back to coach them. It's remarkable.

I am proud to be part of DAA and be part of celebrating 50 years (1968-2018) of community youth sports.

When I became a member of the DAA Board, Rich Materese, Girls Basketball Director, turned over the sport to me and said one thing, "We are here for the kids". Over the years I have worked diligently to follow his saying. I can honestly say my biggest joy in sports, is watching the smiles on the players faces. I think this is an important aspect of what we do here at DAA and I wish to remind all of our families; parents and coaches at all levels that our number one goal is to support the development of our children.

Statistics can show you, most of our kids are NOT going on to D-1 Sports. Studying is the most important thing our kids should be doing. Enjoying themselves in sports is a great runner up and an amazing thing to witness. Many are playing multiple sports, trying out other activities like dance, cheer-leading, theater, etc. It's all good in developing well rounded individuals. Please remember they are kids who need our support and guidance to keep things in perspective. Let's continue to support them in positive ways.

As always, if you ever have a problem in DAA sports, please contact me. Thanks.

Co-Ed Volleyball by Sherri Belfus, Volleyball Director

Our co-ed volleyball program began in 2004 with the goal of creating a recreational volleyball league for kids of all abilities to join and have fun. We do not focus on wins and losses so the kids are free to have a good time with no stress or pressure to perform. We started with one session and 150 kids. We now have 600 to 700 kids annually in our program with sessions running in Spring, Summer, and Fall. In Winter, we also run a Skills n Drills clinic from November through March.

Leagues: Our leagues have 3 divisions run by grade level/age. All divisions are co-ed. You do not have to be a resident of Central Bucks to register.

They are:

Division 1 (5th/6th Grades)
—Director—Art Bass:
bassart9@gmail.com

This is non-competitive, co-ed division with kids who are just starting out in the sport along with kids with some experience.

Division 2 (7th/8th Grades)
—Director and League Director—Sherri Belfus:
sherribelfus@gmail.com

This is a non-competitive, co-ed division with a mixture of kids with experience and kids just learning to sport. At this level, they are learning the game so there are more rallies, less ping pong volleyball and more consistent 3 hits on a side, more ball skills and lots of kids serving overhead.

Division 3 (9th thru 12th Grades)—Director and League Director—Sherri Belfus:
sherribelfus@gmail.com

This co-ed division is more competitive with playoffs

that last week of the season. Trophies are awarded to the winning team. These kids are a mix of high school players, club players, intermediate players and some beginner players.

Summarizing 2017

In 2017 we noticed an increase in enrollment, especially in the Spring. Spring season was up significantly at 298 kids. Summer season was strong as we made changes and added another age group and went from 17-20 players to 72 players. Fall season was off by 10%, and I feel it was due mostly to the new registration system. Adjustments to the budget were made so there wasn't any issue with overspending. I'm sorry to see that the Spring 2018 season is off from last year and feel that it's again due to the new registration system and not being able to (Continued on Page 5)

DAA Jr Baseball—Season Wrap Up! by Bo Dandrea & Mark Tierney

On behalf of DAA Baseball, thank you for partaking in our Spring 2018 season. Through the generous volunteer efforts of many of you, and in spite of some challenges from Mother Nature, DAA Jr Baseball was able to supply 440 boys of ages 5-12 an opportunity to enjoy some great fun on our local diamonds while challenging themselves to grow personally within a positive team environment.

One of our primary goals for 2018 was to continue furthering the opportunities offered to non-travel players.

• With that in mind, we initiated a new winter workout program for all players, and also initiated a Spring Grapefruit League program with Warrington Majors (ages 11-12).

• The latter has culminated in a DAA-Warrington two

week “in-house” tournament that is running from June 18-28 for 44 boys age 11-12.

• We furthered our Pro Day celebrations, replacing end-of-season All Star games for a few players with a fun morning of competition for all boys age 7-12. (See the 12 YO DAA “graduation” picture from our Majors Pro Day here!)

• We continued to insert some practice time during the regular season for boys age 5-10, so that after April 21 there still is time for additional training between games.

Our travel program continued to shine as one of the area’s premier programs.

• We fielded 9 teams age 8-12 in the spring.

• We added two more 7u teams for the summer to

introduce two dozen young 6-7 YO boys to travel baseball.

• Congratulations are in order to our 11A and 11B teams for both winning their respective Suburban Travel Championships!

For the future, we will not stand still.

• One goal for next year is to continue to grow the training opportunities for non-travel players, both pre-season (January-March) and during the season.

• We plan to add additional professional training sessions for our coaches (something that was planned this year in early April, but got rained out!)

• A major goal for 2019 will be to continue to improve our physical playing environment. This year, working with our local Township

and Borough partners, we added a couple of dugouts at Maplewood and two new HR Fences at Turk. At Turk, backstops are now in the process of being replaced with new fencing, and we’ve budgeted for some major field improvements (with ground work to start after our summer season ends).

• Keep an eye out for a Survey Monkey online survey that will be sent to all families in the next few weeks. Feel free to provide us additional feedback in that survey.

• Most of all: We Need You! DAA is an all volunteer organization, and we need new volunteers to inspire new ideas! Currently we have open board positions for Vice President, Special Events Coordinator and Scheduling Coordinator. Our next board meeting will be in September — please keep an eye out!

Did you know...

The longest game played in MLB was 25 innings! The game was between the Milwaukee Brewers and the Chicago White Sox in 1984. The White Sox won 7-6.

2017 Sports Report: Field Hockey by Melissa Maiolino & Eliza Scott

During the 2016 DAA Field Hockey season we had 333 total players and 77 Jr. Coaches. We had an increase of 55 players from the 2015 season and 5 fewer Jr. Coaches. We had approximately 4 Jr. coaches per team, which facilitated one on one attention for building skills and allowed for coach coverage when conflicts with other activities came up.

Team levels ranged from grade 1-6 and the senior division consisted of players from grades 7-12. The age groups were divided as follows: Grades ½ (49 players), Grades ¾ (106 players), Grade 5/6 (105 players). Grades 1-6 were broken down into teams and had 45 minutes of practice and a 45-minute game each week. Senior league was divided into 30 minutes of practice/warmup time and games consisting of two 25

minute running clock halves with a 5 minute halftime. Senior league games were officiated by PIAA level officials. We had 73 girls participate in the Senior league program.

Jr. coaches were primarily responsible for planning practices and officiating game play with assistance from adult coach volunteers and the Directors. We continue to encourage the Jr. coaches to take the lead when planning practices and officiating game play. Directors visited the fields during practice and game play to offer suggestions on how to be more effective both with drills and practice activities as well as officiating the games. Each year we try find ways to best train the Jr. coaches so they can be the most effective coaches they can be. An informational and training meeting

was held at the beginning of the season for all Jr. and adult coaches.

DAAFH continued to plan a number of fun activities throughout the season for the girls including soft pretzel day, water ice day, and coach appreciation day/breakfast. We plan to have these planned days in the future. The end of the season gift for Jr. coaches was a field hockey necklace and players received a DAAFH fleece blankets. We have wonderful parent volunteers that make these activities possible for all the

girls. Players also received a team shirt and team photo. The sale table provides an opportunity for families to purchase DAA field hockey clothing, headbands, balls, mouth guards, etc. ...

Many girls in the community are first introduced to the sport of Field hockey through DAA and go on to play for their middle school, high school, and even college teams as a result of the positive experience and love of the game they acquire through participating in this league.

Did you know...

In the US, Pennsylvania has the highest number of field hockey players!

Softball by Will Hamler & Joe Visco

DAA's softball program is offered to kids from 4 years old up to 19 years old. We are not limited by any geographic boundaries.

Our Phillies program is our grassroots core recreational program. It is divided into 6 leagues based on age: 6U (six year old and under), 8U, 10U, 12U, 15U and 18U.

The 6U program is essentially T-Ball, however players who can hit off a coach pitch will be encouraged to do so. This is a low cost program (\$75) and involves Saturday only play during the season. This is non-competitive. Scores and outs are not kept, each team bats all their players in each "inning." The base paths are shortened from 60 feet to about 45 feet and a smaller 10-inch cushioned ball is used. The game is generally played entirely on the infield dirt surface. The season ends with friendly round robin, softball related games,

Annie's water ice, and a small personalized trophy for each player. All games are against other DAA teams.

The 8U program is also non-competitive. Outs are kept but scores are not. Most players will hit off an electric pitching machine (slow pitch, slight arc), some may still need coach pitch or even a tee. An 11-inch "dimple no-sting" ball is used. There are no strike outs. The teams play/practice once during the week and again on Saturdays. Full base paths are used. The season ends with a friendly round robin, Annie's water ice and small personalized trophies for all players. All games are against other DAA teams.

The 10U program is competitive. Girls will now pitch until they reach a four ball count at which timethe coach will pitch. There are strike outs. Outs, runs and innings are kept.

The inn will end once a team scores more than 5 runs in that inning. The rules are modified—no stealing home, no stealing if up by 5 runs. An 11-inch regulation softball is used. The season ends with playoffs and trophies to 1st and 2nd place teams only. Umpires are used for games. All games are against other DAA teams. Play is twice a week.

The 12U program no longer has coaches stepping in to finish pitching to a batter. Walks are allowed. A full size 12-inch ball is now used. Umpires are used. Our teams now play against

Lenape Valley and Deep Run (sometimes Warrington in the fall). The season usually ends in playoffs with trophies to the 1st and 2nd place teams. Play is twice a week. Most rules are standard softball rules with limits on runs per inning except in playoffs.

The 15U and 18U programs have the team(s) enrolled in the Valley Inter-community Girls Softball League.

Did you know...
More than 110 countries are members of the International Softball Federation. Softball is now played around the world!

Girls' Basketball by Art Bass

Another fun year, numbers maintained, younger teams are growing, kids are having a great time.

Our first/second grade program is very unique for our area. Coach Eric Welch, runs a strictly skills and drills sessions for 60 girls. They play at Cold Spring on 8' high baskets, split into 2 sessions, 8:30-10:00 for 25 first graders, 10-11:30 for 35 second graders. All get tye died shirts, learn the skills needed to play a game of skills.

They move up to a third/fourth grade program at Kutz elementary, where thier skills are enhanced. Rather than penalize infractions, the game is stopped and the girls are shown the correct way to play.

Our 5th/6th grade program grew by two more teams this year. Many talented athletes in this group. The girls that are heading to CB West eventually, are brought up by CB West Coach Rakowsky, and Coach

Ward to participate in the West Open Gym Program in April. The West coaches are extremely happy with the crop this year. The girls are then played in the high school jv summer league. A great building block for the West high school program.

By starting a teaching program at the first grade level, we are teaching the kids to have fun, enjoy the program and keep playing. We try to keep that spirit all the way through our program, and then let the Travel and AAU programs in our area improve their skills.

we had 60 kids come out for the first night of the skills season. We usually have the local HS girls help out and when college lets out CB West Grad Nicole Munger, Univ of Michigan outstanding player, Alex Louin, top scorer Villanova girls will come out to show the kids the outcome of hard work.

Hopefully this will help them grow and achieve success in their sport, and life.

We run a skills program during non bball season, that again helps the young ones learn and appreciate the game. Last Friday night

Did you know...
A regulation WNBA ball has a 28.5 inch circumference—only an inch smaller than an NBA ball!

Co-Ed Volleyball (continued from page 1)

Connect with the previous year's participants.

Our high school teams have done extremely well in the past 2 years and there's more involvement from the HS coaches of East and West as they bring their teams in to help run clinics and coach teams. This is a great way for our younger

kids to get mentored in the world of sport, while teaching the older youth how important it is to give back. I'm also trying to partner with the local clubs to offer one day clinics during the off season for club and high school.

We successfully donated 14 Volley Lite's to all CBSD

Elementary schools this Spring and are currently working on implementing a middle school program, which we hope will give more opportunities to kids to play a sport they can

relate to.

No complaints from parents, and the kids leave smiling.

The fastest serve recorded was clocked at 81.84 mph!

Boys' Basketball by Jon Biedermann

The 2018 DAA Boys Winter Basketball program had a great season!

Enrollment was up 12% (from 469 players to 526 players, above our 10% goal. We believe this increase is due to:

- Adding an additional grade bracket from 7th-12th.
- Rule changes made at all levels (dedication to fair playing time, and rule changes in 5th/6th to include 3 point shots, as well as reinforcing man-to-man only defense)
- Increased marketing and communication

We added a new bracket for high school age players and now have 6 age brackets:

1. 1st/2nd Grade
2. 3rd/4th Grade
3. 5th/6th Grade
4. 7th/8th Grade
5. 9th/10th Grade
6. 11th/12th Grade

Observations from the season:

As enrollment continues to grow, I continue to believe that our mission is being appreciated by our players and families. Last summer (2017), we communicated that a new advisory committee would be formed to look at our current structure and rules. This group met several times during the summer of 2017 and implemented several rule changes. The most important was to clarify our fair playing time rule.

Before the rule change, it was possible for a player to play just 1/2 of the game,

especially at the high school level. With the new rule change, no player can sit on the bench twice before everyone sits on the bench once. We believe this rule change makes it easy for coaches to understand and therefore plan the game more accordingly, while also understanding that certain situations, like being late, foul outs, or injury can be an exception.

We were able to reduce the incidents of parent/coaching misconduct to just one incident. The situation was immediately resolved, and the parent took responsibility.

At the same time, there is concern that some of the DAA coaches are not aligned with our overall philosophy about the program. This includes balancing the game action (I.E., not winning by 20+ points and continuing to step on the gas, and inappropriate outbursts on the court.) We will be discussing our expectations with these handful of coaches prior to the start of the 2019 season, and there is a possibility that one or more may not be asked to coach this next year. I'm sharing this because it would appear that at these age groups we actually have an 'oversupply' of coaches, so the league should be fine if that happens.

New for this year we established our new DAA Basketball Facebook page, headed by our new Social Media Director, Jennifer Nasal.

At the end of the year, we did hold our "Coaches Appreciation Dinner", where more than 60 coaches/referees attended and we also honored all volunteers with 5 years or more of

service with a plaque/trophy. This was well received and we plan on continuing honoring 5 year service awards in the future. We also created a video of the 2018 season on Youtube and includes video clips of different ages. Click here to see the video.

Both of these new social media and video assets will help to continue our strategy of growing the player base by 10%/year until we reach a point that 75% of school age boys in our geographic area are involved in a winter basketball program.

Financials

For the 2018 season, we ended with a surplus of \$6,739. At our June 2018 board meeting I will be mentioning that I want to allocate \$3,000 of this surplus to replace the 25+ year old backboard at Doyle Elementary as a gift from DAA. I have already talked to the principal, Susan Salveson, who preliminary approved the replacement. The next step is to contact CBSD operations with a plan. The proposed backboard will be similar to this one, which would match the current installation almost identically. While we need to work out the installation, I believe that CBSD Operations will cover that cost.

Future Leadership Board

Finally, for 2019, I'm going to be embarking on creating a greater decision making body for DAA Boys Basketball. While we currently have 6 league age directors and a Social Media Director, I believe the time is right to expand the leadership of the league to include a more formal board. This way, decision making is spread across a greater group of like-minded people, and making sure we have the greatest input possible.

This new board would be similar to DAA Baseball with a President, Vice President, Treasurer, and Secretary, and perhaps other positions to be added later. I believe this will be beneficial to the organization to make sure that we continue the growth of DAA Boys Basketball and ensure that there is a natural leadership opportunity and leadership transition in the years to come.

Overall, the 2018 Boys Basketball Season was a great success, and we're looking forward to expanding into 2019!

Jon Biedermann, DAA Boys Basketball Director

Did you know...

Wilt Chamberlain, former center for Philadelphia, holds the record for the most points scored by one player in a single game. He scored 100 points against New York on March 2, 1962!

IMPORTANT DATES

Dick's Sporting Goods is celebrating with a DAA Appreciation Day on September 9, 2018.

Dick's Sporting Goods will hold a special Appreciation Day for all of our participating players, coaches, and their family members. Check out the details here: [Appreciation Day](#). All of our members will receive 20% off their purchase!

DAA Turns the Big 50!!!

In 1968 a group of parents and sports enthusiasts formed a local athletic association, and the Doylestown Athletic Association was introduced to the community. The group picked up where the Doylestown Jaycees started and built upon this mission: Encourage maximum participation so that all youth are offered the chance to engage in athletic competition regardless of abilities or talents. The primary emphasis—balance attitude development and the excitement of athletic competition.

The only prerequisite was the child's desire to participate and, of course, lots of caring adult volunteers who would support them. From that humble beginning and as our 50th anniversary approaches, we are reminded of those individuals who stepped up to help organize, grow and nurture the same mission that is followed today.

We'd like to take this opportunity to thank current and past board members.

By digging through the archived files, we hope to list all of you. Our apologies if we missed anyone, but know that we THANK YOU for your time, talent, energy, guidance, strong work ethic, and most importantly, your belief in the idea that each child deserves the opportunity to develop and learn about sports, which in turn, helps promote a healthy lifestyle.

What started with a baseball program quickly added girls' softball, boys' basketball, girls' basketball, girls' field hockey, to be followed by girls' lacrosse and then co-ed volleyball. Today, DAA offers six youth sports with a membership base of 2,975 participants for the year ending 2018. As you read through the individual sports reports in this newsletter, you can begin to understand the positive impact DAA has had on many, many area families.

In the coming months, we look forward to sharing an anniversary event with our membership base through each sport. Look for anniversary shirts and patches that commemorate 50 years of our DAA family!

2018-2019 BOARD MEETINGS

All Board meetings are open to DAA members (parents of players). The meetings are held the first Thursday of the month at Lenape Middle School in Room 16 at 7:00 pm. Dates are as follows:

9/13
10/11
11/8
12/13
1/10
2/7
3/14
4/4
5/9
6/13

Come out and learn more about your Athletic Association. Hope to see you there!

DAA Sponsors

DAA would like to thank our many generous 2017-2018 team sponsors. Their support is critical to the organization's ability to keep registration fees reasonable for our families and being able to offer expanded sport programs.
