

# Winona Hockey PeeWee C Video Breakdown Homework Assignment

Your assignment is to re-watch Saturday's game (1/10) against Owatonna. The QR code to access the

game is:

While you are rewatching the game, you need to find three examples or situations that you were involved in. Two of these examples should be of things you could improve upon or do differently and 1 of the examples should be of something you did well. Examples cannot all be from the same period (2 from the same period is OK).

When you find an example you'd like to use, record the game clock time where I should start watching, the game time where I can stop watching, and a description of what you are pointing out in the video clip. There is a template provided on this worksheet.

Examples could include: backchecking or forechecking, positioning, pressuring the puck, awareness, or something creative that you observe. When these are returned, I will make a video and narrate your description over the clip for us all to watch. THIS IS DUE FRIDAY BEFORE PRACTICE (1/16).

## **Clip #1 (Something I can Improve Upon)**

Game time at beginning of clip - \_\_\_\_\_

Game Time at End of clip - \_\_\_\_\_
