

# KEEPING THE PICKERING SOCCER CENTRE SAFE FOR YOU AND OUR STAFF DURING THE COVID-19 PANDEMIC

---

## General Facility Use

- Physical distancing of at least 2 metres must be maintained per provincial guidelines
- To eliminate lobby congestion, participants will wait outside until directed to enter by facility staff
- Mandatory masks for everyone during entry and exit to the facility and while spectating; athletes may remove masks during play
- One parent/guardian per child allowed into the facility to spectate
- Signage placed in lobby directing users based on their allocated area in the field house
  - o Field A and B enter using the left revolving door;
  - o Field C, D and Track users enter using the right revolving door
- Change rooms are unavailable, as is the drinking fountain and the water bottle refill spout
- No 'Lost and Found' is being maintained

## Traffic Flow

- Strict start and end times to ensure everyone arrives and vacates the facility in a timely manner
- Staggered field times so not everyone in the facility ends at the same time
- Audio field announcements to ensure prompt vacating of fields
- Fields will be cleared (and sanitized) before the next booking gets onto that field
  - o Once Field A is done their session, they must leave the facility before we allow the next Field A booking to come in
- Pathways are marked out for flow to all fields to ensure there will be no overlaps
- Head counts will be taken to ensure there are not too many spectators and we are adhering to provincial guidelines

## Cleaning/Sanitizing

- Hand sanitizer stations set up in the lobby for use by visitors before going into the field house
- Washrooms cleaned hourly
- High touch surfaces cleaned every half hour
- Fields cleaned and sanitized in between each booking

## Contact Tracing

- Club members (Players, Coaches, Team Managers, PFC Staff) must pre-screen through the Sports Engine program/app
- Non-member bookings require participant waivers be completed to provide a session registration list and contact numbers to allow contact tracing if it becomes necessary.

---

**YOUR COOPERATION AND SUPPORT OF OUR STAFF AND THESE PRACTICES IS GREATLY APPRECIATED!**
