

Old Hundred Athletic Association (OHAA) – Income-Based Registrations

Your income-level should not be a barrier to participation.

Don't let income stand in the way of your kids learning the benefits of playing competitive sports. With our income-based registrations, you can have all the benefits of playing with OHAA at a price you can afford.

No matter what sports your kids choose to participate in, we offer financial assistance to everyone who qualifies. Using our Income-Based Rate Scale, your registration fees may be reduced based on your annual income. Financial assistance is available for **families** earning less than \$75,000 per household per year.

** Discounts on registrations may not be immediately available and can take up to 7 days to process.*

** Each season, you will be asked to provide proof of income to be eligible for the adjusted rate.*
