scan to sign up!

When: February 22-24

We will leave from BK after the Dotty Clark race on Thursday, February 22nd for Utah. Our hotel is located in Murray with a travel time of about 5 hours. From the hotel we will have a short, half hour bus ride to Brighton where the snow is traditionally light, fluffy, and dry, making it a paradise. Brighton gets the very best of the "greatest snow on earth," and lots of it. After shredding the pow-pow Friday and Saturday we will hop on the bus and return back to BK.

Where: Brighton Resort, Utah

Brighton is Utah's only resort that can boast that 100% of its terrain is accessible by high speed quads, covering 1,050 acres and 1,875 vertical feet of incredible skiing. Brighton's grooming is five star. Beginner and intermediate trails are groomed nightly. And for the experts, main runs are groomed, but most is left untouched for those who like their powder deep without any fuss. Brighton is one of few mountains where friends or families can ride together on the same lift and then peel off onto different trails and all meet at the bottom to ride the lift together again. You may stick to the groomed trails, but there are trees and chutes, cliffs and natural terrain parks all within bounds for those who like white knuckle terrain. Freestyle riders and skiers enjoy Brighton's four terrain parks for all abilities. The terrain park crew keeps moving the features around so what's here today might be gone tomorrow. Ski under the stars with Night Riding at Brighton. With over 200 acres, 24 runs, 250 lights, 4 lifts and terrain park access, Brighton offers the most night skiing terrain in Utah.
