

Coach Kevin Albert

Coaching Philosophy

USA ICE HOCKEY CEP Level 3

I believe in the power of positive reinforcement and providing the tools to help players develop their hockey skillset. This should be accomplished with a Can-Do-Attitude. In addition, once the correct mindset is in place, I believe strongly in helping the players develop long-term and short-term goals to help them focus on building a hockey career. I am a very passionate and high energy coach who believes in the team concept.

Player development is my main objective, as well as providing a safe environment for the player to learn. Locker-room is key to any successful team.
