

*The mission of the Waukesha West Boys Volleyball program is to train and inspire student-athletes to play volleyball at a high level.*

Our program hopes to be known for being men of good character and integrity, for hard-work and dedication, showing respect to all and for being selfless as we pursue greatness. If you choose to be part of the Wolverine Way, you will be asked to maintain these standards.

Volleyball is something we do, but not who we are. Everyone plays a vital role. Your personal worth is essential and independent of what you do on the volleyball court. The coaching staff hopes to be great mentors throughout your four years in the program and beyond.

Our team will have a common purpose, clear roles, accepted leadership, effective processes, solid relationships and excellent communication. We must be committed to working hard, challenging each other and growing in knowledge of the game.

The coaching staff will maintain these standards and hopes to instill a lifelong enjoyment of the game to all that are part of the program. We want to partner with you as we all pursue one common mission!

Go Wolverines!
