Observations

Based initial costs on 25-30 people participating

\$200.00 per person was budgeted for bus and driver tip included. Bus took us into town two nights for dinner. Because I built the tip into calculations, I did not have to "pass the hat" for tip contributions. Everybody agreed this was a good approach and recommend it for future bus trips.

Room rate varied somewhat (\$540-\$600 each) because I requested additional rooms(6). Initially requested 10 doubles and 5 singles. Recommend in future to initially request 15-20 double rooms, 5 singles. Hotel cancellation policy's vary but believe if cut off is 2 months prior, there should be no cancelation fees.

Built in \$15.00 per person for beer, wine, "Truly's", cheese, snacks, waters. Bought premium beer. Had to pass the hat to buy additional beverages. Recommend budgeting \$30.00 per person in the future. Had two nights of Wine, beer, etc., and Cheese, misc. snack offerings due to over purchase. Breakdown of recommended purchases for future trips based upon 32 people which should be enough for one night wine and cheese party and 5 days bus rides (2 days x 8 hour bus ride, 3 days to and from (1hour each way) mountain).
