

WEST MEADOWS AND SPORTS COMPLEX COVID 19

Of course the situation is fluid and we will continue to adjust accordingly. These protocols are subject to review and additional protections may be added.

General Rink Rules

ALL sessions will be limited to 9 players and 1 coach (10 people max)

Coaches are responsible for practicing social distancing guidelines on the ice and will keep skaters 6' apart from one another.

Parents and spectators are NOT allowed into the building (drop-off and pick-up only). The only exception is to assist younger skaters (tie skates) (8u ONLY)... Parent must then be wearing a mask.

Players MUST be registered online to attend your session. No walk-ins allowed

Benches (Locker room and rink areas) are marked with black or white tape. Players and coaches are only allowed to sit where the tape is. Markers are set for social distancing limiting 9 people per locker room, if the locker room is used.

The rink will have a one way traffic pattern that must be followed at all times.

If you have a fever or don't feel well, you will be not allowed entry.

If a family member (sibling or parent) is sick do not come to the rink.

If parents are parking at the rink while kids are on the ice we ask that parents social distance as well.

The lobby, bleachers, locker rooms, concession areas will be closed.

There will be a gap between rentals to allow for groups to leave, for staff to clean the ice and for arrivals for the following slot. Please do not arrive more than 5 minutes prior to your scheduled ice. The doors will be locked until your designated time.

There will be designated entrances depending on which rink you are skating. You must go to the entrance listed. Doors will be labeled. You will not be allowed to walk through the rink.

Players

Each player must wear a mask when entering the rink, and whenever not wearing a helmet. They will be able to leave their mask in a designated area on the bench while they skate.

Each player must adhere to the 6 foot social distancing rules while in the rink (locker rooms and benches will be marked off for social distancing)

Players must bring their own water bottles, filled at home. Water fountains are not available

We are using a COME DRESSED –LEAVE DRESSED plan. Skaters must arrive fully dressed to the rink, put skates on before entering the ice. Players should leave all valuables at home.

Skaters will be advised to use the restroom before they get on the ice – you will not be allowed to backtrack toward the front of the building

If skaters are not fully dressed, wearing the appropriate face mask, they will NOT be allowed to enter the building. If a skater or coach violates any of the above rules, the entire group will be removed from the building.
