

## Summer Updates

Happy Summer! There is a lot of stuff going on right now so please make sure you are reading all state, regional and national updates. These can be found on each respective website. Some highlights for you to know are:

- Event specialists must now score a 9.2 to qualify to state meet.
- Xcel Regional format changes- XCEL Regional meet - Athletes will qualify from the State meet by percentage from each state (just like the level 6-7-8 athletes) Only Silver, Gold, Platinum and Diamond will be eligible for a regional meet (no Bronze) This is in an effort to get the meet down to a three day competition. In addition, the Club team competition will be dropped from the regional meet - the only Team competitions will be the State teams at all divisions
- Level 6, 7, 8 & XCEL Regional qualification - we will no longer offer a scratch and replace for the regional meets - instead the number of athletes will be increased to the regional meet and if there is a scratch, there will be NO replacement - NO ALTERNATES - so your athletes that do not qualify from the state meet will know at the state meet and not have to keep training etc - It will also be very important that all clubs let us know if they will be attending the regional meet and/or if you have athletes that will not attend - as once the state meet is over and the final list of qualifiers is announced there will be NO added athletes even if someone does not enter

by Monday or if there is a scratch

- Georgia State Meet information is updated on [GAUSAG.org](http://GAUSAG.org). Click to see dates, locations and qualification dates.
