

SMYS Practice Fields

SMYS has over 140 Recreation teams practicing at limited locations, both public parks and local SMUSD school sites. Many of the schools we use as practices locations will have after school programs that also utilize the fields; when using school fields for practices, remember to be considerate of these other children on the field and provide safe distance. We are not permitted to use school grounds or the school's restrooms. Please make sure that SMYS players and their siblings stay away from classrooms, restrooms, and play equipment. Clean up after your practice and if you are the last one at the school field, lock the access gate behind you.
