

TORNADO PRIDE STP COVID-19 PROCEDURES

Starting on July 6, 2020, every player registered through AAHA and the Tornado Pride STP will be required to follow this protocol. Parents, please go over this plan with your player. As more details are added/edited or changed, we will send out additional communications prior to the start of our programs.

Remember we can contribute to helping eliminate COVID-19 by doing these four things:

- Physical Distance
- Wash Hands and Practice Safe Hygiene Habits
- Clean Surfaces and Equipment Between Uses
- Staying Home When Sick or Experiencing Any Symptoms

For all Tornado Pride STP events, the on-ice coaches will uphold the following standards:

- Players must stay at home when sick and follow social distancing while at the rink.
- Each parent is required to go through a COVID-19 symptom screening with each athlete before they can step on the ice.
- Players may not change time slots in the case of conflicts - you may only attend your assigned time.
- Coaches and rink staff will not tolerate breakdowns of health etiquette norms and inappropriate behavior at the rink. General horseplay with other players and/or jokingly spitting or coughing towards others, etc. will not be tolerated. Inappropriate behavior and/or breakdowns of health etiquette norms may result in the player being asked to leave the summer program with no refund.
- Players will not be able to enter the rink until 15 minutes prior to their scheduled start time.
- Please make sure your players have gone to the bathroom prior to arriving at the rink.
- Players will need to arrive to the rink fully dressed, except for skates, helmet, and gloves.
- Masks are encouraged to be worn by everyone who enters the rink, but not required.
- Players should bring in one full water bottle with clear markings for their name
- Players will only be allowed to go to their designated locker room, where stalls will be marked to allow for proper social distancing in locker rooms.
- **Updated per Phase 2 Guidelines:** Pods will be created with a maximum of 25 people in each pod. Rinks will be allowed to have two (2) pods of 25 people or less at a time; they must stick with their pod for the entirety of their on-ice session. If you are not able to make it to your assigned session, you will not be able to participate in another sessions due to the restriction on numbers per ice time.
- Players will be able to set their water bottles on the bench, but not have access to the benches.
- Players must leave the rink within 15 minutes of the end of their session fully dressed, except for skates, helmets, and gloves. Parents should ensure that timely drop-off and pick-up times are followed.
- Parents of players over 11 should drop off players and picked up timely afterwards. Minor athletes under U8/U10 are allowed one adult chaperon during their session. Chaperon must follow safe physical distancing measures.
- All participants will be notified if we become aware of someone who has used the facility tests positive for COVID-19.
