

HOW TO UPLOAD YOUR CONTEST VIDEO TO YOUTUBE & VIMEO

When you're ready to upload your contest video to an Internet hosting site please follow these instructions for *YouTube* or *Vimeo*. **Remember Videos MUST be set to Private/ Unlisted in order to be judged.**

Please note that if your video length is longer than five (5) minutes, *Vimeo* requires a paid membership be established to host your video as **unlisted** on the Internet. If you or your student are using an alternative hosting site please understand that your region's support contact(s) may not be able to provide technical support during the week of competition, and could negatively impact you or your students scores. For these reasons, Minnesota BPA is strongly recommending that all students use the free hosting site *YouTube*.
