

# ICE CASTLE

To our customers:

We have undergone extensive cleaning and sanitizing in our facility during the time we have been shut down. Please follow government guidelines with social distancing and sanitizing while in our facility to help us ensure safety for our staff and customers.

- Participants with risk factors or illnesses should not attend in-person training and ice sessions.
- Participants with symptoms or signs of illness should not enter the premises.
- Face masks are *highly* recommended (except for hockey players on the ice).
- Players need to bring and label their own water bottles; no sharing of water bottles. Any bottles left at the rink will be discarded.
- Player's towels and equipment should be for their personal use only.
- Players are encouraged to come dressed in equipment as much as possible to avoid crowded dressing rooms.
- Players in the locker rooms should practice social distance. If available, we will assign extra rooms.
- Parents should not be in the locker rooms for any reason, but in the event a young player needs help with equipment, he/she should come out of the room for assistance.
- We recommend players come alone to the rink, but if a parent prefers to come, then it should be limited to one parent if possible.
- Any spectators should stay in the bleachers in an appropriate distance from each other.
- No loitering in the lobby or bleachers. Visitors should exit the building as soon as possible after the ice session is over.
- No tailgating/gathering in the parking lot.
- Tobacco use and vaping is prohibited inside the building, including smokeless/chewing tobacco. Please discard any chewing tobacco in a trash receptacle before entering building.
- Sanitizing stations have been added in several locations throughout the lobby. Please wash your hands frequently and/or use the sanitizer that is provided to prevent germ spreading.
- If entering the Bar/Lounge, stay socially distant. No standing along the bar between bar stools. No children/young adults under age 21 is permitted in the bar.

We appreciate your business and cooperation during this difficult period. Stay safe and enjoy the ice!
