

SSA Process for Borrowing a Player

The team coach is responsible for finding players if the team is short of players. This is NOT the team manager's responsibility.

1. The team coach contacts the other team coach. **Coach may not go directly to players and/or families to recruit for subbing at games.**

2. The team coach of the team loaning players recommends players who they feel are deserving of the opportunity to play based on the following:
 - Good attitude
 - Excellent attendance at their own team practices and games
 - Good performance

3. The coach should first try and contact the team coach within their own age group and gender for example:
 - U13 Regional Girls borrows from U13 Cities Girls
 - U12 Regional Boys borrows from U12 Cities Boys
 - If there are no players within your age group available or ONE age group below, then please contact the appropriate Coaching Director for advice about where to pull players from.
 - Any exceptions to the above format must first be approved by the coaching director.

4. Once approved by both coaches the managers from both teams can follow up with each other and finalize the process.
