

Arizona Region of USA Volleyball
Player Release Form

Part 1 - Player Request for Release

The Arizona Region and USA Volleyball consider a player committed to a club from the date the commitment is made to the final day of the Jr National Championships. Anytime during that period that a player wants to leave their club and join another will require a release regardless of the reason. There are player eligibility requirements and contractual obligations that may prohibit a player from being released or picked up by another club. The new club may not talk to the player about joining their club or offer a position in their club until a release has been granted by the Releasing Club and approved by the Arizona Region. The player may not begin practicing with another club until notified by the Arizona Region that the Release has been approved. Incomplete forms are automatically denied.
