

2021 Development Camp Report

Vice Presidents again helped Lori getting names and invitations out to the players. Minimal issues with getting players registered.

Dave Fielding recruited evaluators. Quite a few new evaluators this year; several of them from outside the district.

Support costs for food, etc. higher due to compliance with health orders regarding food – everything in single packaging. Also used food truck to maintain compliance. By raising price to player to participate should cushion the blow.

Summer camps conducted at Bowling Green State and Lourdes University. Use of app to rate the players was postponed until next spring's tryouts due to scheduling conflicts for review of the program. Minor issue with ice during the 15 Camp which was addressed and the camp was concluded with no disruptions. 14 Camp was not completed at the time of this report.

National Camps are on green. ADM managers will lead the charge due to recent staff changes made in Colorado.

Thanks to those who volunteered to hand out jerseys, check in players, run a bench, input data and / or evaluate the players.

Next year's dates for tryouts will be:

April 29 – May 1 Birth Years: 2008 (14s) and 2007 (15s)

May 13 – May 15 Birth Years: 2006 (16s) and 2005 (17s)
