

NORTH SHORE UNITED ACADEMY (U8-U10)

The NSU Academy Program is designed to give younger players, ages 6 – 10, better coaching, conditioning and more advanced skill work to begin preparing these players for a possible career in select soccer. The Academy will increase the skill level and overall knowledge of the game for these young players. Additional focus is placed on creating a fun and exciting player environment, developing fundamental soccer skills and promoting a positive attitude.

North Shore United's Academy is a state accredited Academy that participates in the WYSA Academy league against other accredited Academies. These accredited Academies are player development methods for 6-10 year olds and focus on pool rostering of players with flexible game day play. Youth Academies provide a higher level of training for committed players desiring a more advanced development model. Games will be played in a festival format with all teams in an Academy travelling to the same location on a given date to play competitively matched games against other area Academies.

CURRICULUM

Individual development in the technical area is the main focus. Ball control, first touch, quick feet, dribbling, defending, passing and moving, receiving, turning, shooting and crossing will be the major components of development. Small-sided games (1v1, 2v2, 3v3 and 4v4) are emphasized during training to increase touches on the ball and gain an understanding of tactical principles. All sessions are conducted by NSU Academy's highly qualified professional coaching staff.
